

Jenny Tran

1) I am interested in running for an At-Large Representative position. During my time at Chabot, I have been actively engaged through the various programs and clubs we have on campus and have fostered a better understanding of our community's dynamics and needs. Being an At-Large Representative would allow me to further advocate these needs and be a voice for our diverse community. In doing so, I'm committed to promoting a welcoming and inclusive environment where every student can thrive on our campus.

2) Currently, I am majoring in Psychology and plan on transferring to a four-year institution. Exploring psychology has been a natural fit for me, as I have a genuine curiosity about human behavior and interactions. As someone who thrives on connecting with others and understanding our shared experiences, going into psychology allows me to understand others better, especially within the diverse and supportive community we have here at Chabot. I also plan on going into education with my Psychology degree and hope to create supporting learning environments for students in the future.

3) The three words I would use to describe myself would be passionate, conscientious, and cooperative. These traits help guide me through all aspects of life. I have a genuine passion for the things I do; striving to meet my obligations both personally and within a team to make a meaningful difference. Alongside that, I try my best to approach things with attention to detail, to ensure tasks are carried out with thoroughness and accuracy. My cooperative nature also allows me to create strong relationships and promotes effective teamwork, which leads to shared success.

4) One goal I would like to achieve as a member of the Student Senate is to improve the visibility and accessibility of the many different programs on campus. Many students on campus are unaware of these programs and resources and often feel unsupported as a result. One way to approach this could be teaming up with campus groups and promoting more on social media platforms. By doing this, we can ensure that every student knows where to turn for assistance as they further their academic and personal careers at Chabot. This not only enhances student success but also creates a stronger sense of community within our campus.
